

## PRODUCT FEATURES

Intended for smoothing (27293, 27294; 27295) and polishing (27296) surfaces and cut edges such as ceramic tiles, natural stone, and milled rock tiles. Perfect for hard-to-reach places and smoothing edges after cutting. Can be operated dry, but wet operation is recommended to extend product life. Smoothing/polishing job has to be divided into stages starting with grit 50 to reach grit 400. Compact dimensions, flexible EVA foam structure, and side notches provide comfort even during long work.

CODE	GRANULATION	
27293	50	50
27294	100	50
27295	200	50
27296	400	50
